FOR IMMEDIATE RELEASE

- **NEW FABRIK VIDEO PREMIERES ON FRIDAY 2 NOVEMBER**
- **VIDEO FOR 'BLACK LAKE' – AS FEATURED IN NEW US DRAMA**

FABRIK unveil the stunning new video for their song '**Black Lake**' on Friday 2nd November.

'Black Lake' is taken from FABRIK's debut album, ***City Islands*** and has recently been featured in the hit US television series ***Light as a Feather***. The horror series lists Kelsey Grammer as an executive producer and, since its debut on Hulu in early October, has brought FABRIK a lot of interest from across the Atlantic.

The haunting visuals, conceived by FABRIK vocalist Hayley Trower and filmed in collaboration with Birmingham-based film-maker Brynn Jenkins, were shot around **Elan Valley** in Wales. The video affirms FABRIK's penchant for creative, self-directed visuals.

Hayley says "I wrote the lyrics to 'Black Lake' in the midst of daily drinking in Thailand, surrounded by overwhelming beauty. Sat in a hut, looking out at dense jungle and fierce sea, I was in awe at how tiny my life was in comparison to the infinite life cycles and continuous regeneration around me."

Musically, the song's cyclic guitar riff and swirling synths were influenced by the group's love of ambient acts such as **Boards of Canada** and **Tycho**.

NOTES FOR EDITORS:

FABRIK are a four-piece whose music encompasses elements of trip-hop, electronica, rock and psychedelia; creating music with a distinct, cinematic flavour.

Incorporating strands as varied as ambient soundscapes, slowed-down jungle beats and fierce guitar work, their debut album *City Islands* has won praise and support from *BBC Introducing* as well as local radio and TV.

In 2018, FABRIK signed with Anara Publishing, soon becoming the company's first licensed artist when their track 'Black Lake' was chosen for use in US drama series *Light as a Feather*.

FABRIK are deep into recording their second album, as well as conceiving and directing videos for all of the tracks on *City Islands* and compiling a series of remix EPs in collaboration with artists from all over the globe.

FABRIK expertly blend an incredibly eclectic wealth of influences (from the Sex Pistols to Italian composer Ludovico Einaudi, to pick just two) to create music that is at once ethereal and accessible, atmospheric and melodic.
